GEP Worldwide [Tier-1 Global Procurement Consulting | Gartner Magic Quadrant] | Coimbatore, TN

GEP is a leading global procurement consulting & managed services firm serving Fortune 500 clients across 100+ countries, recognised in Gartner Magic Quadrant.

- Executed **end-to-end sourcing activities** including supplier evaluation, negotiation, and contract support for **Engineering Equipment, Capex, and MRO** categories, contributing to QCLDM objectives of cost optimisation, quality compliance, and supply continuity.
- Managed **SAP Ariba and Coupa** procurement operations — converted PRs to POs within defined SLAs, maintained **99% PO accuracy rate** through structured daily quality audits, and ensured full compliance with sourcing agreements and client policies.
- Supported **category sourcing strategies** by analysing spend data, monitoring supplier performance, and assisting Global Category Managers in sourcing decisions aligned with business requirements.
- Led **catalogue management** — automated Coupa catalog form uploads via Power Automate achieving **90% daily upload rate**; onboarded suppliers and improved procurement system adoption.
- Drove **digital transformation & automation initiatives** using Excel VBA and Power Automate — streamlined PR–PO tracking, data consolidation, and reporting; reduced manual effort and improved data accuracy and scalability.
- Built and maintained **Power BI dashboards** for daily/weekly/monthly MIS — tracked spend trends, supplier KPIs, cycle time, and compliance to support data-driven decisions.
- Acted as **key liaison between internal stakeholders and global suppliers** — resolved delivery, technical, and commercial queries; managed preferred and non-preferred supplier performance reports with corrective actions.
- Contributed to **GEP AI Hackathon 2025** — developed an automation solution for file consolidation workflow; recognised with **Spot Award** and **Outstanding Contribution awards (Aug 2024, Q3 2025)**.
- Mentored junior procurement specialists; **reduced PR validation errors from 2% to 1%** through structured knowledge transfer and continuous improvement initiatives.

Procurement Engineer
